

Want to see if Engineering is right for you?

The Society of Women Engineers at the University of Virginia invites you to apply for our High School Visitation Program happening on April 9th, 2022.

About the Program:

The program gives young women (cis and trans) and non-binary high school students a comprehensive look at engineering fields and at UVA's engineering curriculum through informative speakers, lab tours and interactive design activities. The program is designed to benefit participants with all levels of engineering experience. We particularly target those students who are not yet familiar with the field but may be interested in applying to engineering schools or pursuing an engineering career.

Program Activities:

The High School Visitation Program teaches students about the different types of engineering as well as what it is like pursuing an engineering degree through fun and interactive experiences. Some of the events throughout the day are:

- Design Activity
- Engineering Majors Fair
- Tour of UVA Grounds
- Student Panels and Various Speakers
- Lab and Dorm Tours
- Scavenger Hunt

How to apply:

The application to apply for Fall High School Visitation can be found at our website: <https://www.virginiaswe.org/hsv>.

This page will also include:

- Further information about the High School Visitation Program
- Copies of documents found in the application
- Contact information for any questions about the program or application

Sincerely,
Sunya Qamar & Susan Furlough
