

REGISTER FOR USTEP 2023!

Come learn from UVA students about topics they're passionate about!

When? Sunday, February 26th

Where? University of Virginia

Who? All 6th-8th graders are invited

Cost? Free! We want as many students to attend as possible!

Registration Link: https://virginia.az1.qualtrics.com/jfe/form/SV_3Fca2yjurwxvLzE

Contact Info: Alysha Akhtar (yhc8vx@virginia.edu) &
Katie Chandler (hyg9cn@virginia.edu)

What is USTEP?

- USTEP (University Student Taught Engineering Program) is a fun-filled educational outreach program to serve middle school students throughout Virginia. The event will be hosted by the Society of Women Engineers (SWE) and sponsored by the Center for Diversity in Engineering at UVA. Middle schoolers will be able to have a one-of-a-kind experience taking classes taught by passionate UVA Engineering students.
- Students have the opportunity to take 3 classes they are interested in! Our course catalog for this year includes: **The Inner Workings of Vehicles, Biomechanics of Ankle Sprains, Harry Potter Potions Class, An Exploration of the Respiratory System, Minecraft and Logic Gates, Saving Space Exploration, and Independent Projects with Python.**
- We were inspired to create USTEP by an event called [Splash](#), held at universities all over the US. Our ultimate goal is for students to be inspired by college students and get excited about learning new topics in a fun, stress-free environment. We hope you join us for the fifth annual USTEP event this year!
